

Leadership

Amirjon Nosirov Akhmadjon o'g'li is the Director, responsible for overseeing all departments within the Center. He ensures the implementation of tasks and policies as mandated by Uzbekistan's Constitution, laws, Presidential decrees, Cabinet resolutions, and Uzkomnazorat guidelines. His responsibilities include:

- Organizing strategic plans, action programs, and introducing advanced management practices for the Center's improvement.
- Issuing directives and instructions for all employees to maintain executive discipline and accountability.
- Managing financial resources, including budgetary and non-budgetary funds.
- Defining roles and responsibilities of deputy directors and other officials, listening to their periodic reports, and overseeing staff selection and placement.
- Collaborating with state, economic, and local bodies and assigning representatives for legal matters.

He directly supervises the Accounting, Human Resources, Legal Counsel, Information and International Relations, and Economic Planning and Marketing departments. The Director is accountable for the Center's overall performance and may exercise additional powers per legal stipulations.

Yuldashev Bakhtiyar Abdulkhavich's Role and Responsibilities

Position: Deputy Director for Strategic Development and Business Analysis

Contact Information:

Email: b.yuldashev@technocorp.uz

Phone: +998(55) 501-43-11

Reception: Tuesdays, 14:00–17:00

Responsibilities Overview:

Task Implementation and Compliance: Coordinates and implements tasks as defined by presidential decrees, government resolutions, and other legislative acts in Uzbekistan, particularly those issued by Uzkomnazorat. Oversees execution of plans aimed at improving the Center's activities.

Project Participation and Documentation: Reviews and prepares draft regulatory documents, ensures regulatory compliance, and assists government departments in document preparation. Supports software and information systems setup, management of servers, data backup, and information security.

Office and Staff Management: Supervises office management, appeals processing, staff workspace arrangements, and technical resources procurement. Enforces compliance with health, safety, and fire regulations.

Economic and Financial Oversight: Monitors economic activities, staffing schedules, budgets, and expenses. Manages service tariff development, service proposals, contract execution, and accounts management.

Administrative Functions: Signs financial documents as needed, interacts with government ministries, and ensures the Center's compliance with labor discipline and etiquette standards.

Departmental Oversight: Directs the activities of the Consulting, Information and Analytical, Regulatory, and Technical Support departments.

Additional Duties: Represents the Center in meetings and commissions, submits proposals for Center improvements, and oversees staff evaluations and discipline.

Accountability: Personally responsible for assigned tasks and for ensuring lawful and effective performance across all responsibilities.

Juraev Javokhir Dadajon o'g'li is the Deputy Director of Software Development at Technocorp. His role includes:

Compliance and Task Implementation: Manages the implementation of decrees, resolutions, and legislative acts from the President, the Cabinet of Ministers, and other authorities of Uzbekistan. Oversees the development of concepts and action plans for enhancing the Center's activities.

Regulatory Oversight: Reviews and prepares regulatory documents, ensuring compliance and regulatory control over the Center's documents and assisting with documentation for government departments.

IT Management: Manages the setup, configuration, and maintenance of software and hardware systems, including servers, information systems, data backups, and troubleshooting issues. Ensures information security, oversees the maintenance of IT equipment, and defines technical specifications for server and computer systems.

Administrative Supervision: Supervises office work, document management, employee discipline, and responses to individual and organizational appeals. Manages resources, including procurement, inventory, and compliance with safety and technical requirements.

Economic Oversight: Monitors economic activities, staffing, and cost estimates. Manages accounts, develops service tariffs, and ensures proper financial reporting and contract execution.

Interagency Relations and Proposals: Coordinates with ministries, enterprises, and public administrations, proposing improvements and handling contract negotiations.

Internal Operations: Enforces internal labor policies, promotes professional discipline, and prepares proposals for staff incentives and disciplinary actions.

Department Leadership: Directly oversees the Consulting, Information and Analytical, Regulatory and Methodological, Technical Support, and General Departments.

Javokhir Dadajon o'g'li is personally responsible for meeting the assigned objectives and may exercise additional powers as per legal guidelines.
